robotec

ROBOTICS + AGRICULTURE + WEB3

Building the Next Generation of Agricultural Automation.

Empowering Farmers with Smarter Automation, More Efficient Field Operations, and Connected Digital Agriculture.

Helping Farmers Reduce Repetitive Fieldwork, Improve Operational Efficiency, and Access Robotics-Powered Agricultural Services Through a Web3 Ecosystem.

Our approach combines:

- ✓ Mobile robotic platforms
- ✓ Robotic manipulation
- ✓ AI-assisted operations
- ✓ Computer vision
- ✓ Precision agriculture
- ✓ Remote monitoring
- ✓ Robotics-as-a-Service
- ✓ Farming Robotics
- ✓ Smart Agriculture

+

- ✓ Blockchain Technology
- ✓ Community Participation
- ✓ Staking & Utility Programs
- ✓ Global Agricultural Innovation

FARMER JOURNEY

From Requirement to Robotic Operation

STEP 1 — FARMER REQUEST

Customer identifies a farming requirement.

STEP 2 — FARM ASSESSMENT

Field conditions and operational requirements are evaluated.

STEP 3 — ROBOT SELECTION

Suitable robot configuration and tools are selected.

STEP 4 — DEPLOYMENT

Robot is delivered or scheduled for operation.

STEP 5 — OPERATION

The robot performs the assigned task.

STEP 6 — MONITORING

Operations can be supervised and monitored.

STEP 7 — REPORTING

Operational information is collected and provided to the customer.

robotec

EMPOWERING FARMERS TRANSFORMING AGRICULTURE

BENEFITS TO EVERY FARMER.

Crop Monitoring

Crop Monitoring

Monitor crop conditions and collect field information using cameras and sensors.

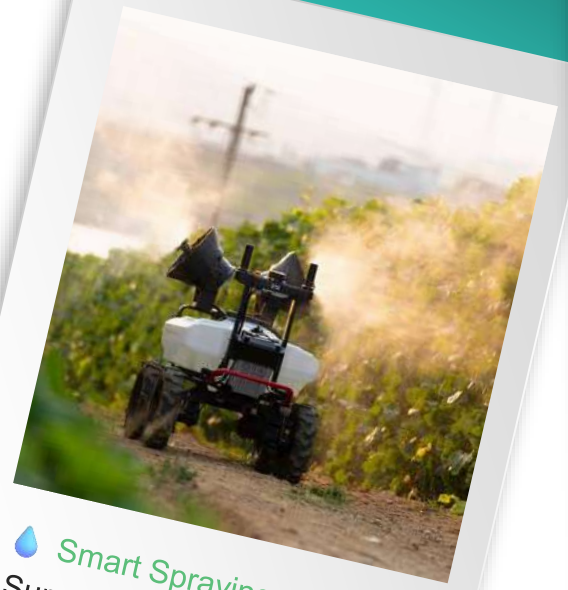

Precision Weeding

Precision Weeding

Identify unwanted vegetation and support targeted mechanical or other appropriate weed management operations.

Smart Spraying

Smart Spraying

Support targeted application of water, nutrients, or crop-protection inputs where the technology and regulations permit.

Farm Transportation

Farm Transportation

Transport agricultural materials, tools, harvested produce, or supplies around suitable farm environments.

robotec

Robotic Mobile Manipulator (RMOMA)

A Robot Designed to Move, Observe and Act

Our concept combines a mobile robotic platform with an intelligent manipulation system.

M

Mobile Base

- ✓ Autonomous Movement
- ✓ Navigation
- ✓ Terrain Adaptation

R

Robotic Manipulator

- ✓ Multi-Axis Movement
- ✓ Tool Integration
- ✓ Object Interaction

V

Vision System

- ✓ Cameras
- ✓ Crop Observation
- ✓ Object Détection

A

AI & Control

- ✓ Task Planning
- ✓ Navigation Intelligence
- ✓ Operational Decision Support

© 2026-33 ROBOTEC. All rights reserved.

robotec

WHY ROBOT RENTAL & RMOMA?

POWERING THE FUTURE OF SMART FARMING WITH
WEB3 TECHNOLOGY!

COMMUNITY GET

- ✓ Agriculture-Focused Innovation
- ✓ Robotics + Agriculture + Web3
- ✓ Staking-Linked Minting Model
- ✓ Three Token-Burning Mechanisms
- ✓ Automated Liquidity Management
- ✓ Controlled Token Distribution
- ✓ Smart Farming Ecosystem
- ✓ Vision for Agricultural Automation

FARMERS GET

- ✓ Lower initial investment
- ✓ Flexible usage
- ✓ Access to advanced technology
- ✓ Maintenance support
- ✓ Technology upgrades
- ✓ Seasonal deployment
- ✓ Scalable robotic capacity

RMOMA

KEY FEATURES & UNIQUE VALUE PROPOSITION

01

THE FIRST MINABLE TOKEN ON BNB SMART CHAIN!

Pioneering a New Era of Mining-Inspired Token Innovation.

02

STAKING-LINKED MINTING

RMOMA can only be minted through eligible staking deposits.
NO DEPOSIT = NO MINING.
There is no alternative method to mine RMOMA.

03

AUTOMATED LIQUIDITY MANAGEMENT

20% of each eligible staking deposit and 7.5% of each withdrawal are allocated to support RMOMA ecosystem liquidity.

04

THREE TYPES OF BURNING MECHANISMS

A multi-layered burning system designed to reduce RMOMA's circulating supply and support long-term price appreciation.

05

CONTROLLED PRE-MINTED TOKEN DISTRIBUTION

A structured allocation and release model designed to ensure transparent, controlled, and systematic distribution of pre-minted RMOMA.

robotec

RMOMA TECHNICAL SPECIFICATIONS & TOKEN ECONOMICS

SPECIFICATION	DETAILS
Token Name	RMOMA Coin
Symbol	RMOMA
Blockchain	BNB Smart Chain
Standard	BEP-20
Total Supply	**21,000,000 RMOMA**
Initial Pre-Mine	**3,000,000 RMOMA (CONTROLLED DISTRIBUTION IN 7 YEARS)**
Future Mintable Allocation	**18,000,000 RMOMA (RMOMA tokens are minted exclusively upon eligible staking)**
Decimals	18 proposed
Contract	To be officially published
Status	Ecosystem Development
Minting Period	Up to 7 years
Post-7-Year Rule	**All remaining unminted RMOMA will be permanently burned.**

TOKEN CONTRACT

0x2F9C8DBE779d821C0F09fbEb302Ce8DD14bc5C74

robotec

INITIAL PRE-MINE

INITIAL PRE-MINE

3,000,000

MAXIMUM PERIOD

7 YEARS

DEVELOPER'S ALLOCATION

150,000

ACCORDING TO DEVELOPER'S ALLOCATION IN 7 YEARS

Developer's Allocation refers to the specific share of constructed space, apartments, floors, or commercial units in a real estate or joint development project that belongs to the developer rather than the original landowner or housing society.

MARKETING ALLOCATION

1,200,000

ACCORDING TO MARKETING ACTIVITY

Key marketing activities plan over a 2-year (24-month) horizon focuses on shifting from foundational setup to optimization and scaling.

TREASURY & ECOSYSTEM

450,000

AS PER BUSINESS REQUIREMENTS

Allocating strategic capital into ecosystem projects, ventures, or acquisitions that drive value back to the core business.

AIRDROP ALLOCATION

750,000

ACCORDING TO SOCIAL MEDIA ACTIVITY

A social media activity airdrop (often called a bounty airdrop) is a marketing campaign where crypto or blockchain projects distribute free tokens to users in exchange for social media engagement.

SECURITY & SERVICES

450,000

ACCORDING TO BOUNTY PROGRAM

A Bug Bounty Program is a crowdsourced security initiative where organizations pay ethical hackers and security researchers to find and responsibly report software vulnerabilities before malicious actors can exploit them.

robotec

RMOMA BURNING MECHANISM

A multi-layered burning system designed to reduce RMOMA's circulating supply and support long-term price appreciation.

TRANSACTION BURN

2.5%

of all eligible transactions

MONTHLY BURN

0.1%

on pre-mined RMOMA, subject to available balance and smart contract rules.

LONG-TERM SUPPLY BURN

Eligible remaining mintable RMOMA may be burned after the defined supply period.

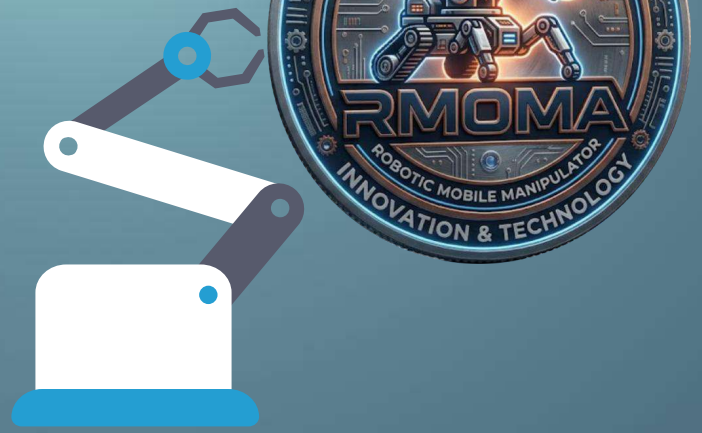

All burn transactions are publicly verifiable on-chain, with burned tokens sent to the 0x000000000000000000000000000000000000dEaD burn address.

RMOMA ECOSYSTEM

One Ecosystem - Multiple Utilities

- RMOMA COIN
  - FARMER
  - ROBOTS
  - WEB3
- RMOMA COIN
- COMMUNITY
- LIQUIDITY / DEX
- TOKEN UTILITY

© 2026-33 ROBOTEC. All rights reserved.

robotec

RMOMA UTILITY

🚀 Advanced Utility

RMOMA can be designed to support:

- ✓ Farming-service payments
- ✓ Agricultural robotics services
- ✓ Ecosystem transactions
- ✓ Platform utilities
- ✓ Community rewards
- ✓ Staking functionality
- ✓ Referral Loyalty Programs
- ✓ Liquidity participation
- ✓ Promotional campaigns
- ✓ Partner integrations

RMOMA is intended as an ecosystem utility token, not a promise of guaranteed financial returns.

robotec

AFFILIATE PROGRAMS

WITH FIVE ELEMENTS REWARDS.

© 2026-33 ROBOTEC. All rights reserved.

robotec

RMOMA LOYALTY ECOSYSTEM

1 HOLDERS

RMOMA ecosystem membership can provide access to selected platform features and services.

2 RENTAL SHARE

A defined participation mechanism connected to eligible farming-robot rental/ecosystem activities.

3 LOYALTY

Rewarding eligible ecosystem participation.

© 2026-33 ROBOTEC. All rights reserved.

ROBOT RENTAL SHARES

STAKED DAILY RENTAL SHARE

(NOTE: Minimum Staking $10)

20% of deposit will be reserved for the Liquidity Pool to support market liquidity and trading.

CONDITION	RENTAL SHARE	DAYS
---	0.5% / DAY	200 Days
3 DIRECTS	0.75% / DAY	133 Days
5 DIRECTS	1.0% / DAY	100 Days
10 DIRECTS	2.0% / DAY	50 Days

NOTE: Direction should be Same and Above Staking.

LOCKED STAKING

COMPOUND RENTAL SHARE

(Staking Wallet)

20% of deposit will be reserved for the Liquidity Pool to support market liquidity and trading.

STAKING DAYS	RENTAL SHARE	COMPOUND BENEFITS
30 DAYS	0.50% / DAY COMPOUND	116%
90 DAYS	0.50% / DAY COMPOUND	156%
180 DAYS	0.50% / DAY COMPOUND	245%
365 DAYS	**0.50% / DAY COMPOUND**	**615%**

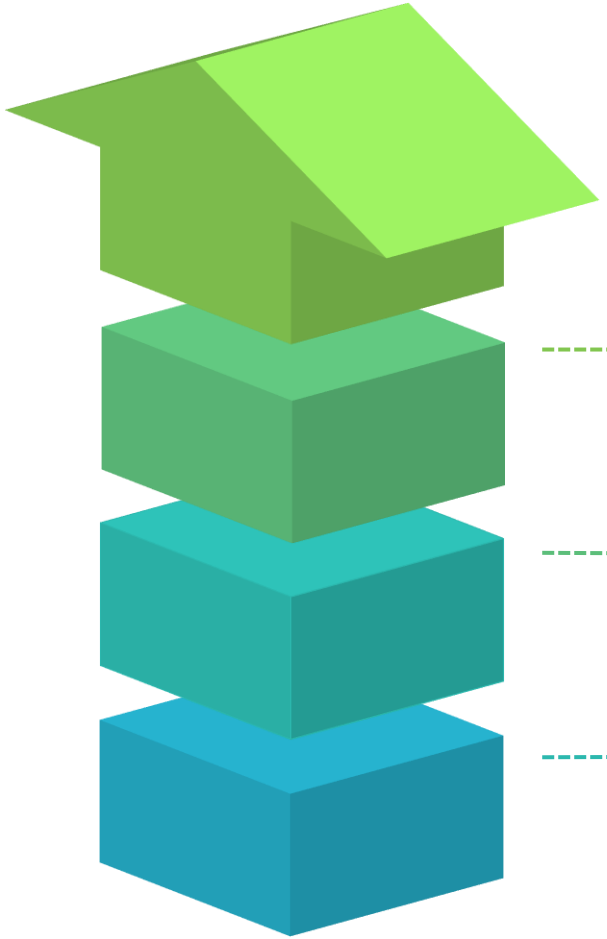

NOTE: Rental Share (Including Principal Repayment)

robotec

RANK	BENEFITS
PULSE	$ 1000
VECTOR	$ 2000
NEXUS	$ 3000
TITAN	$ 5000
GALAXY	$10000

🏆 ACHIEVEMENT REWARD

RMOMA: Champion Bonus

© 2026-33 ROBOTEC. All rights reserved.

GALAXY RANK

SEVEN YEARS ROYALTY SHARE

ALL GALAXY RANK ACHIEVERS WILL BE ELIGIBLE FOR A 7-YEAR ROYALTY SHARE OF 3% OF MONTHLY RMOMA TURNOVER, SUBJECT TO THE FINAL ELIGIBILITY REQUIREMENTS OF THE LOYALTY PROGRAM.

© 2026-33 ROBOTEC. All rights reserved.

robotec

RMOMA CHAIN:

RENTAL SHARE & REWARD STRUCTURE

LIQUIDITY POOL:

- ✓ 7.5% of each withdrawal is allocated to the Liquidity Pool to support the token ecosystem and market liquidity.
- ✓ 20% of staking (MINTING) allocations is allocated to the Liquidity Pool to support liquidity within the ecosystem.

ROI & INCOME WITHDRAWAL :

ROBOT RENTAL SHARES WITHDRAWAL — RMOMA Token

- ✓ Eligible ROI balances in tokens may be withdrawn according to the platform's applicable token-withdrawal conditions.
- ✓ 2.5% of the applicable on all transaction amount is allocated to the token-burning mechanism.

OTHER INCOME WITHDRAWAL — USDT (BEP-20)

- ✓ Eligible income balances may be withdrawn in USDT, subject to the applicable withdrawal rules and conditions.

RANK & REWARDS — DUAL-SIDE VALUE SYSTEM :

- ✓ Rank qualification is based on qualifying value generated across two sides of the team
- ✓ 50% Higher-Side Value + 50% Other-Side Value = Rank & Reward Qualification

UN-STAKING RULE :

- ✓ On Un-stake: A 30% deduction is applied to the un-staked amount, and the remaining 70% is automatically transferred/reversed to the Un-staking Wallet.
